World Peace Day

Fall Highlights

Our Peace Day partner school is Lalaji Memorial Omega International School. These are 10-12 year old students with the peace cranes they made to exchange with YVA. Greetings from Chennai, India and back from Austin, Texas!

"Monarchs: The Milkweek Mission"

Choristers in Prima and Medius began their project on Monarchs by viewing a film written by one of our awesome board members, Turk Pipkin. The facts and enrichment activities that followed helped them solidify their mission on becoming a part of the solution for helping the butterflies migrate from Canada to Mexico. Choristers were able to take home their own milkweed plants and along with that, some friendly caterpillars.

Fall Music Retreat

Our Fall Music Retreat came and went. Each chorister arrived with anticipation about what the day would entail. What they found was a day with family. The morning opened with team building activities that created a beautiful dynamic with our youngest at age 6 all the way through our 18-year-olds!

Choristers worked on music literacy in reading rhythm notation, composing, writing on the music staff and singing rounds to identify the harmonies within! Percussion skills were showcased during a group-wide drum circle and of course, choristers participated in two sessions of choir where the choristers sang as one large ensemble for the first time.

2018-2019
